Arrives From Lebanon--

## Hammaraskjold Begins Talks With Israelis

JERUSALEM, Israeli Sector (AP)—Dag Hammarskjold arrived today from Lebanon and immediately began talks with Israeli government leaders in a new stage of his Middle East peace mission.

The U. N. secretary general traveled directly from Lydda Airport outside Tel Aviv to the office of Premier David Ben-Gurion.

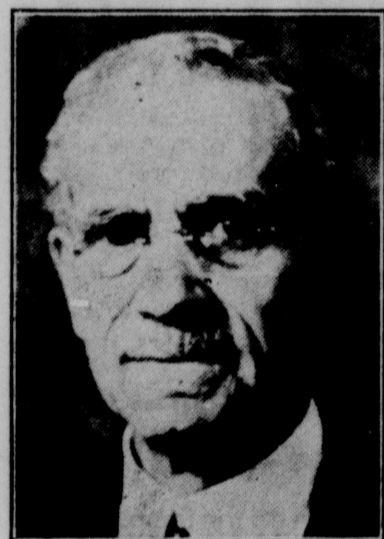

He was accompanied by Foreign Minister Moshe Sharett, who welcomed him at the airport. Maj. Gen. Edson L. M. Burns, Canadian chief of the U. N. armistice commission, came with Hammarskjold from Beirut.

An afternoon meeting was expected to follow the morning conference.

His task was made tougher by Israel's demand that Egypt lift all restrictions on Israeli shipping through the Suez Canal. He was reported optimistic, however.

Prior to leaving for Israel, he conferred in Beirut with Lebanese chiefs.

The Israeli border area was comparatively quiet. An Israeli army spokesman said the dining hall of a cement factory six miles

Dr. A. W. Kokendoff

## Rev. A. W. Kokendoff Dies Tuesday

Following several years of invalidism Dr. A. W. Kokendoff, 95, pastor of the First Christian Church in Sedalia for a continuous period of 35 years before 1943, died at 11:20 a. m. Tuesday at his home, 908 South Ohio.

He was born in Bath County, Ky., son of G. W. and Susan Moler Kokendoff May 24, 1860, and was educated in the public schools of Kentucky, the Kentucky University and the College of the Bible in preparation for his work in the ministry.

In 1890 he was married to Sallie F. Allen, daughter of a widely known minister and editor author of that time. She died in Mexico, Mo., in 1905.

Mr. Kokendoff came to Missouri in 1891 holding pastorates in Kansas City, Mexico and Sedalia. He resigned in Sedalia in 1943 because of failing health and because of advancing years.

In 1910 Mr. Kokendoff toured Europe with a group of ministers, attending the Passion Play at Oberammergau.

In 1911 he married Laura D. Gentry, Sedalia, member of a pioneer family of Pettis County, who survives him.

Mr. Kokendoff was a member of the board of directors of William Woods College, Fulton, Mo., for 36 years and was at all times intensely interested in church, state and national affairs pertaining to religion.

In 1935 he made a second European trip with his wife, who survives as do a number of nephews and nieces in Kentucky, and numerous members of his congregation still living, to whom he had a deep devotion.

Dr. Kokendoff, during his ministerial activities in Sedalia, was recognized as having officiated at more marriages and funerals than any pastor serving Sedalia churches. It was estimated he performed 3,000 marriage ceremonies.

Before coming to Sedalia he was pastor of the Christian Church at

## Child Center Needs Volunteer Help Last Term

The Crippled Children's Center is in dire need of volunteer helpers to assist during the last spring session of the year beginning April 23, it was announced here today by Mrs. Rudolph Swope, director of the Center. This will be a five-week session, going through to May 25.

In order to familiarize the new volunteer helpers with the work, a training session will be held at the Center, which is at the Nurses' Home of the Bothwell Hospital, on Wednesday, April 18, at 7:30 p. m. for those interested in working with the older group of children. A similar session will be held on Thursday, April 19, at 7:30 p. m. for those interested in working with the nursery group. The helpers, who have been working at the school and who will continue during the new session are also invited to attend either one of the sessions.

Mrs. Swope and her assistants will speak to the groups on the results of the recent speech clinic conducted at the Center at both of the sessions on Wednesday and Thursday evenings.

It was pointed out by Mrs. Swope there is special need for women who can teach art and music during the spring session; however, others without any special qualifications are urged to volunteer their services. Further details can be obtained by calling Mrs. Swope at 6140 or 5418 or by reporting at either of the training sessions this week.

In the Missouri Senate--

## Vote Is Near on Investment Of State's Surplus Funds

JEFFERSON CITY (AP)—The Missouri Senate is ready for a final vote, probably tomorrow, on a plan to let the state invest its surplus funds in either interest-bearing time deposits or government securities.

The proposal still would face House action in the closing days of the special legislative session before it could get on the November general election ballot.

Gov. Phil M. Donnelly's proposal for the constitutional change was altered sharply in three hours of Senate argument yesterday. At the finish, some of the senators said frankly they still weren't sure about the legal effects of some of the changes.

Donnelly suggested that investment of funds not needed for day to day operation of the state government be limited to time deposits in Missouri banks. He proposed that not more than 50 per cent of the treasury balance be put out at interest.

As advanced last night on a voice vote the changed Senate version would require the treasurer to invest either in interest-bearing time deposits or government securities maturing in less than a year. It would be up to the treasurer to decide how much could safely be invested.

The issue has been boomed by candidates of both political parties and yesterday Sen. Floyd R. Gibson (D) of Independence, the majority leader, said it was too bad the matter had to come up in an election year.

Gibson, who was handling the governor's plan, said the "state has no business in the speculative bond market." He called investment in government securities "an extremely foolish idea that has

## Legislators Keep Trying for Solution To Money Problem

JEFFERSON CITY (AP)—Members of the Senate Appropriations Committee kept their noses to the grindstone today, trying to work out solutions to the special session's big money problem.

Sen. John W. Noble (D) of Kennett, committee chairman, said the committee worked on matters of policy last night, apparently attempting to resolve some of the major conflicts on splitting up Missouri's \$75 million building bond issue.

Today the committee went back into closed door session at 9 a. m. Noble said it would work all day and into tonight, going over House approved allotments item by item. He said he hoped to have the job finished by tomorrow so the money problems could be taken up in the Senate. Conflicts between House and Senate figures will have to be settled in joint conference committees before the automatic adjournment time, midnight, April 26.

### City Engineer

E. V. Bishop

### Held Position In Nebraska--

## E. V. Bishop Is Appointed City Engineer By Council

E. V. Bishop, formerly assistant to the city engineer of Grand Island, Neb., was appointed city engineer of Sedalia by Mayor Julian H. Bagby at the regular Council meeting Monday night. His appointment was confirmed by the Council.

Engineer Bishop comes to Sedalia highly recommended, according to Mayor Bagby, who contacted numerous officials as to his qualifications.

He attended the Engineering School of the University of Nebraska, his home state. Bishop spent four years at Camp Beale, near Marysville, Calif. 1944 to 1948, as chief of operations with the Post Engineers Section and two years with the U. S. Government Bureau of Reclamation at Grand Island. For three years he was a field engineer for the Silas Mason Co., at Grand Island and for several years served as assistant to the city engineer of Grand Island.

He is married and has four children and four grandchildren. Mrs. Bishop and her two daughters Nancy and Margaret, will come to Sedalia on May 25, as soon as the school year has been completed in Nebraska. Their other two children are their sons, Eugene and Verne, both married and residing in Grand Island.

## Soviet Union Calls on Israel and Arab States to Strive for Conflict Settlement

MOSCOW (AP)—The Soviet Union today called on Israel and the Arab states to settle their conflicts on a basis acceptable to both sides.

A foreign ministry statement, one of the most important issued recently, was released on the eve of the arrival of Soviet Premier Nikolai Bulganin and Party Boss Nikita Khrushchev in England for talks with British leaders.

Russia offered to join other governments in an effort to reach a solution of Middle East turmoil and said she would support any United Nations actions to "strengthen peace in Palestine."

She thus indicated a desire to have a stake in Middle East affairs.

Russia called on both Israel and the Arab states to refrain from border incidents along the U. N.-

approved frontier and to improve the situation of the hundreds of thousands of Arab refugees.

The statement appeared to have the immediate effect of choking off any idea the Arab states might have had that they could count on automatic Soviet support in their struggle with Israel.

It also answered repeated public expressions by Western leaders urging the Soviet Union to use a conciliatory influence in the Middle East.

The statement was issued at a hastily summoned news conference in the Soviet Foreign Ministry.

Diplomatic hope for good results from the talks in Britain between

British Prime Minister Eden and the Russian leaders soared in the wake of the statement.

Diplomats regard the statement as clearing the path for discussions in London on the subject of the Middle East—which has exploded into the world's No. 1 international problem.

The statement said:

"The Soviet Union considers that it is necessary in the interest of strengthening international peace and security to work toward a stable peaceful settlement of the Palestine question on a mutually acceptable basis taking into consideration the just national interests of the interested sides."

## Psychologist Speaks Tonight At High School

Featured on the Pettis County Medical Forum this evening at 8 o'clock in the Little Theater at Smith-Cotton High School will be Dr. Fred McKinney, professor and head of the department of psychology at the University of Missouri. The subject to be presented will be "Learning to Live With Yourself."

Dr. McKinney is a very popular speaker and conducts a weekly television program, "Not In Your Stars," which deals with everyday problems of living. He is appearing on the forum at this time in connection with Mental Health Week, April 29 through May 5.

The Pettis County Medical Forum is sponsored by the Pettis County Medical Society in the public interest. There is no admission charge and the public is invited to attend.

## Dulles Says Soviet Support of UN Efforts

WASHINGTON (AP)—Secretary of State Dulles said today the United States would welcome Soviet support for United Nations efforts to prevent war and establish peace in the Middle East.

Dulles spoke at a news conference immediately after the Soviet foreign office announced the Russian government would cooperate in U. N. peacemaking.

## Deadline Near On Insurance For Corn Crop

Pettis County farmers whose corn is not yet insured by the Federal Crop Insurance Corp. have until April 30 to get their 1956 crops under insurance. Al Newman, FCIC agent for Pettis and Cooper Counties announced Monday.

It was pointed out by Newman that more than 50 per cent of Pettis County farmers eligible for this coverage took it in 1955, up to the present time.

"We are fortunate in having this program for this county," Newman explained, "as Pettis County is included in several other counties of the state, while many Missouri counties have been unable to be approved for coverage up to this time."

New applicants who need collateral on which to borrow money, can contact Newman and a collateral assignment can be carried on the crop insured, guaranteeing production whereby the lender and borrower will be certain of a definite cash return from the crop insured.

Also the premiums for FCIC coverage are deductible in computing income tax returns.

Statistics show for 1955 that more money was paid into Pettis County to farmers than was paid out in premiums. The government is attempting to stabilize farmers in this and other counties by insuring the major commodities they produce.

According to statistics, the investment in a \$2,000 barn has a chance of total loss once in 40 years. A \$2,000 investment in corn crop, according to statistics, has a chance of total loss once in eight years and two partial losses out of the remaining seven years. The FCIC stresses these losses but also encourages the farmer not only to insure the crop but also the barn.

The deadline is April 30 and Newman can be contacted at his office in the Gordon Building, Third and Ohio.

## Weatherman Forecasts Frost Again for State

KANSAS CITY (AP)—Missouri got another frost warning today and the Weather Bureau said some points may have even freezing temperatures by tomorrow morning.

Low temperatures tonight are expected to range between 25 to 35. The colder weather will also invade the southeast portion.

The mercury dipped to 27 at Kirksville and Butler last night. Carthage, Joplin and Rolla recorded 30, and most other points had readings just below or slightly above freezing.

The forecast for the next five days was for temperatures five to eight degrees below normal with some light showers possible during the first half of the period.

## 'Old' Council Clears Slate And Adjourns

### Request for Liquor License Spotlights By Attorneys' Pleas

By D. Kelly Scruton

The City Council reorganized Monday night at its regular meeting when the newly elected Councilmen were sworn in and took their places in the Council. There were no changes of faces in the Council and the only procedure was the acknowledgement of their reelections and signing their oaths of office for another two years. Other city officers re-elected at the city election the first of the month also signed their oaths and were sworn in by City Clerk W. C. Ream.

The meeting began as usual with the reading of minutes and the passing of ordinances which were introduced at the last regular meeting. As soon as the old business was completed, Councilman Woodrow Garrison moved the old Council adjourn finally and Councilman Earl Paxton seconded the motion.

Mayor Julian H. Bagby, just before the motion was voted upon, signed all ordinances which were given final passage in the meeting of the old Council, thus putting into effect for the newly elected officials a salary increase which came about by the passage of a salary ordinance.

Following the signing of the ordinances, Mayor Bagby called the meeting to order and asked all elected officials to step before the rostrum. The group lined in front of the rostrum and their names were called off by City Clerk Ream who passed to each their commission and the oath. He then swore the group into office.

The re-elected officials were: Chief of Police Edgar Neighbors, City Collector Paul Alpert, City Attorney James Durely, City Magistrate Willard Morris, City Assessor John Blue, City Treasurer Mrs. Claude Brown, and City Councilmen Harry Moore, Roland Snively, Dr. Ira White and C. L. Kelley.

Councilman Earl Paxton introduced Moore from the first ward; Councilman Woodrow Garrison introduced Snively from the second ward; Councilman James Shaw introduced Dr. White from the third ward; and Councilman Aubrey Case introduced Kelley from the fourth ward.

The Council then began its reorganization. Councilman Case took the floor and nominated Councilman Kelley for president pro tem. The motion was seconded by Garrison. He was elected unanimously. Kelley succeeds himself as president pro tem, an office he has held for several years.

Under the old Council the following ordinances were given final passage: ordinance raising the salary of the Chief of Police to \$6,000, city collector to \$4,800, city attorney to \$2,100, city magistrate to \$1,800 and city councilmen to \$1,200 (only the four newly elected Councilmen will receive the salary raise); ordinance for paving of West 11th from State Fair Blvd., west 212 feet; ordinance establishing the building line and restriction of certain buildings from Marshall Ave. east on Highway 50 to the city limits, with the building line to be 85 feet back from the center line of the highway; a similar ordinance on West Highway 50 from State Fair Blvd. to the city limits; an ordinance prohibiting the parking of motor vehicles on the west side of Engineer from Third Street to Broadway; an ordinance discontinuing the 15-minute parking meters in front of banks; ordinance for curb and guttering on Beacon from Broadway south to 16th; an ordinance accepting the work done, materials furnished and improvements made of J. W. Atkinson Construction Co., for a sewer in District 117; ordinance accepting work done, materials furnished and improvements made for a sewer in District 114 by J. W. Atkinson Construction Co.; accepting work done, materials furnished and improvements made for a sewer in District 108 by V. A. Siegel and Son; and an ordinance creating new Sewer District 125.

Buy less mash. Save up to 75¢ feed cost per bird

You buy only 7 pounds of Ful-O-Pep per bird (2 lbs. Chick Starter + 5 lbs. Growing Mash). You save about 75¢ on each pullet grown by following the famous Ful-O-Pep restricted feeding plan. You save up to 14 pounds total feed, per bird, over forced feeding plans... yet grow big-bodied, fully-matured pullets. Just feed your pullets 5 pounds of Ful-O-Pep Growing Mash pellets per 100 birds—5 days a week—plus oats every day. It's that easy!

Birds lay full-sized eggs—very few if any, pee-wees!

Research shows that pullets grown on the famous Ful-O-Pep restricted feeding plan laid 18 more eggs than full-sisters grown on forced-feeding plans. Their eggs were bigger, too — averaging almost 1½ ounces more, per dozen. You see, on the Ful-O-Pep plan, pullets are not forced to lay prematurely... are allowed to develop normally and fully before they are brought into egg production. As a result, they lay more eggs and big, full-sized eggs—very few, if any pee-wees.

Save feed cost on birds grown in confinement, too!

This year, there's a brand-new Ful-O-Pep restricted feeding plan for growing pullets in confinement. This plan, proved by research, will help you grow big, fully-matured pullets capable of heavy, continuous laying and long laying life—save you money on feed cost, too. So this year grow pullets that lay more eggs at less feed cost. Follow the famous Ful-O-Pep plan.

## WSCS Group Studies Book on 5 Classics

The WSCS of the Fifth Street Methodist Church met Thursday at the church. The meeting opened with a prayer service led by Mrs. E. B. McNeil. The regular business meeting followed with the president, Mrs. F. T. Rucker, presiding. The program topic "Christian Discipleship Today" was presented by Mrs. Glenn Cox, program chairman for the day, who was assisted by Mrs. R. V. Miller and Mrs. K. P. McCrary.

Mrs. George Lovercamp reviewed two chapters from the study book "Five Spiritual Classics." The first chapter, "Imitation of Christ" was written in the 15th century and is said to be the most read and most studied classic outside of the Bible. The second chapter "The Practice of the Presence of God" was compiled from writings and conversations of a man who did kitchen work in a monastery. The program closed with prayer by Mrs. Lovercamp. Luncheon was served at noon by Mrs. W. E. Botts and her committee.

Refreshments were served to 13 members and Dicky Downs.

## Lockheed Plane Goes 1,000 MPH

By VERN HAUGLAND  
PALMDALE, Calif. (AP) — The Lockheed F104A Starfighter, a missile with a man in it, has flown more than 1,000 miles an hour.

Several hundred persons, including the largest gathering of news writers of its kind, witnessed the achievement yesterday. It was the fastest aircraft ever has flown before a sizable audience.

It was the first public showing of this dazzling new craft which Gen. Nathan F. Twining, Air Force chief of staff, has called "the fastest and highest flying fighter anywhere in the sky."

The exact speed of the plane is a secret. Actually two models were flown—the original XF104, powered by a Curtiss-Wright J63 jet engine, and the production model F104A, which has a lighter and more powerful engine, the General Electric J79.

Although the speeds were not disclosed, the pilot of an F94C jet fighter reported he was flying 500 miles an hour, and the F104A pilot, Herman R. (Fish) Salmon, was heard to reply over his radio, "I am doing better than twice that fast."

Robert E. Gross, Lockheed Aircraft Corp. president, told the gathering that the F104 was "the champion in the fighter field—the finest fighter in the world."

The most striking thing about the new fighter was its resemblance to a missile, largely because its wings are so short and stubby they hardly seem to qualify as airplane wings.

## Prince Takes Groom's Usual Back Seat

MONTE CARLO (AP) — Actress Grace Kelly was the unrivaled star of the Riviera today as the hour drew near for the first of her two wedding ceremonies with Monaco's Prince Rainier III.

The Prince took the groom's usual back seat.

Their civil marriage ceremony will be held tomorrow, followed by the religious service Thursday.

Last night was given over to excited prewedding girl talk.

Grace was hostess to her bridesmaids at a gay party in Rainier's palace. The Prince, who is living at his villa until after the wedding, was present for awhile, but the occasion was strictly for the girls.

Rainier also was in the background at yesterday's rehearsal for the religious ceremony. He took no active part while Grace and her mother Mrs. John B. Kelly of Philadelphia went through the rehearsal motions.

Both Grace and Rainier appeared nervous but they managed smiles for photographers. The Prince even romped a bit with one of the children who is to participate in the wedding.

News men were invited to watch the rehearsal.

Relations with photographers and reporters turned on a smoother path after Rainier called on a Hollywood public relations man for some advice and assistance.

The Prince was obviously upset by the friction that had developed, especially by a booring he and Grace received Sunday night from cameramen. After that incident he sought the help of Morgan Hudgins, M-G-M staff man who is a member of the Kelly party. Hudgins advised the Prince to give the photographers a few minutes to take pictures and suggested that a royal representative hold a daily news conference and answer questions.

### Vanatta Farm Home Destroyed By Fire

The farm home of Mr. and Mrs. J. R. Vanatta, Route 3, Sedalia, was destroyed by fire early Sunday at \$5,000.

The Pettis County Fire Department was notified at 12:45 a.m. after discovery of the blaze, but by the time the fire truck arrived the flames had enveloped the residence to a degree the firemen's efforts were futile.

Although the house was burned, the outbuildings were not affected by the blaze.

The property was partly covered by insurance.

Sea shells range in size from the microscopic to some weighing more than 500 pounds.

### Circuit Court

The State Highway Commission filed a petition for condemnation of right of way against Joe E. Thompson and others for the purpose of constructing a 24 foot wide concrete roadway at a section of road known as Highway 50 starting at the Johnson County line and running east for 3.390 miles.

In the case of Raymond J. Richardson vs. Goldie M. Richardson it was incorrectly recorded that an annulment was granted the plaintiff. It should have read divorce.

### Magistrate Court

Sylvester Wessel, Sedalia, was sentenced to 30 days in jail Tuesday morning on charges of issuing an insufficient funds check. The sentence was suspended.

Melvin F. McCrery was fined \$25 and costs Monday afternoon on charges of passing where view was obstructed. McCrery pleaded guilty.

Henrietta Quinn was fined \$25 and costs Monday afternoon on charges of passing where view was obstructed. Mrs. Quinn pleaded guilty.

Martin B. Hilliard, Sedalia, held on charges of embezzlement, waived his preliminary hearing Monday

## City Council

(Continued from Page One)  
president pro tem, the first order of business was presenting to the Council the names of various city employees and members of the various city boards for Council confirmation.

All names recommended by the Mayor were confirmed.

The resignation of W. L. Lewis, as manager of the Sedalia Memorial Airport to become effective as of May 1, was announced at the Council.

Lewis addressed his resignation to D. Kelly Scruton, chairman of the airport board, in which he stated "other interests have been demanding more of my attention to the point that I no longer feel that I can do justice to the position as airport manager."

A resolution for curb and guttering on Prospect from 11th to 14th was read and adopted by the Council and an ordinance ordered drawn.

License to sell package beer for the Zero Locker, Main and Ohio, was approved. A 3.2 beer license for E. L. Hagerman, who recently purchased the Pete's Pig Pen on South Osage, was approved.

The application for the transfer of a liquor-by-the-drink license from 701 West Main, formerly owned by Mrs. Lucille Mos and purchased by Robert L. Woodall of the Missouri Bowl, 105 South Missouri, to the Missouri Bowl, was read. On a motion by Harry Moore the application was tabled for further study by the Council. There was no discussion on the request.

The request of Richard C. Esser for the transfer of his package liquor license from 1729 West Broadway to 2507 West Broadway was approved by the Council.

A request of Mrs. Mary E. Martin to transfer a liquor-by-the-drink license from 211 South Ohio to 2505 West Broadway met with opposition and the Council denied the request. But not until after Attorney Harold Barrick, representing Mrs. Martin, had spoken in the behalf of his client and Attorney Henry C. Salvester had spoken in behalf of his client, J. P. Quinn, owner of the building where the Martin license is now in force.

Barrick took the floor and stated the application was not for a new license and the only thing in question was a change in location within a proposed district for light business. He explained the legal aspects connected with obtaining a license have been met by the applicant in which 80 per cent of the property owners and 100 per cent of the tenants on properties within the legal distance of the location had signed the petition of approval.

He explained his client had been in business since August, 1955, at the present address and the police had not received one complaint about the license or the business. He requested the Council to approve the application.

Salvester then spoke to the Council, explaining he was not directing any derogatory remarks toward the applicant and was there solely for the purpose of opposing

afternoon and was bound over to the September term of Circuit Court. Hilliard was remanded to the county jail on failure to make \$5,000 appearance bond.

the application. He said he did not feel it wise to open up a residential area for such a place. He then went on to explain the present location, 211 South Ohio, had long been used for such business and if the present occupant moved it would subject the owner to extensive remodeling for any other type of business. He also pointed out he understood no more such licenses could be issued and would deprive the owner of a renter of like business.

Salvester also pointed out it was near police regulation in the downtown area, and "losed by asking on behalf of the owner of the property, that the Council weigh all matters carefully before its decision."

Barrick, in rebuttal, reviewed the arguments, saying it appeared the sole essence of the argument was the owner was asking a guarantee for a license for that location from "now until eternity." Barrick said, "The present occupant owns all the fixtures, lights and heating plant and the owner of the building the four walls. The only objection is the owner of the building wants assurance the license will stay."

Councilman Kelley then spoke up. "The remarks of Mr. Salvester on whether it is for the best of public interest is the point on which I vote. I do not feel it is for the public interest and move the application be denied." It was seconded by Councilman Case.

On a voice vote, Dr. Ira White was the only one who voted "no" on the motion.

A petition was read requesting curb and guttering and paving with hot mix asphalt of Plaza Avenue in Southwest Village, an S and A. Development Co. project. The street runs west off of Limit to the presently improved streets of the development. It was referred to the engineering department.

A petition for curb and guttering at 2601 South Woodlawn was read and approved.

A petition for closing of all streets and alleys in the Ricks Addition, Tower and Engineer, was opposed by Councilman Garrison, whose motion was seconded by Paxton, and the request was denied.

A paving petition was read from property owners on Monticau and Vermont from Sixth north to the south line of the MKT right-of-way, and on Wilkerson from Monticau to Park. The petition is for a hot mix asphalt pavement.

A petition for street improvements in the DeJarnette Addition for paving on Herold, Albert Lee, Sue Lane and Kay Street, was read. One portion of the petition, asking that the city stand the expense in excess of \$1.25 a foot, was deleted by the Council on request of the mayor. The petition, with the exception of this portion, was referred to the city engineer.

Councilman Kelley then announced it is necessary for all department heads to meet with the chairmen of the various Council committees to prepare for the budget requirements for the coming year. He also announced a meeting of

the finance committee Tuesday afternoon.

Councilman Paxton moved a booklet be published by the Council of the names of the Council committees, city board members, and chairmen of the committees. It was approved.

Councilman Garrison reported the street and alley department needed 500 tons of crushed rock, and authority to purchase it was granted. Garrison announced there will be no free seal coating of the city streets, this program having been discontinued a year ago, and property owners interested in getting their streets sealcoated and repaired must make their needs known within the next 30 days.

George Thompson, representing the Sedalia Industrial League, appeared before the Council and explained the Sedalia Industrial League was about to die. He explained a meeting held Monday night at Jefferson School indicated assistance would be needed.

Thompson asked the City Council to employ someone who could devote his time to organization, supervision and operation of the league. He pointed out the City had indicated an interest in a city-wide recreational program.

"Employment of someone to handle this recreational program for this summer could be a good beginning toward that program," Thompson concluded.

The Council took the matter under advisement.

Mexico. He was a member of the Masonic lodge and took part in numerous programs of that body.

When he came to Sedalia the members of the First Christian Church was about 600 and he, with excellent support, increased it to over 1,000.

A year after his retirement, a high tribute was paid him by the congregation through making him pastor emeritus of the church for life. This was by unanimous vote.

His successor as pastor was the Rev. Clyde S. Sherman, who announced Dr. Kokendoffer would occupy the pulpit, and at that time such action was taken.

## Farm Aid Not Partisan Matter

When anyone or anything has the magnetism to get a unanimous vote these days, such approval will be entered on the credit side of the big book up yonder.

There is much ado about the farm bill which President Eisenhower vetoed—mostly from public office holders and their dependents who are scared to death the farm bill either will or will not become an issue in the presidential campaign.

That's why the farm bill has been labeled a "political farm bill"—just exactly what it is, regardless of all the rip snortin' denials by those who declaim it and they are "protectors of the farm interests."

Much of this seems to be a matter of opinion especially when one considers leading representatives of the national and state farm organizations themselves are split over the merits and demerits of the political farm bill.

You'll find this sort of split-thinking right here in Central Missouri and, of course, quite a bit of this is political thinking.

One thing is certain the thinking out here in Central Missouri is in favor of the farmer getting his fair share of the Republican prosperity which the smaller communities are not going to

have if the farmer doesn't prosper.

But the manner in which this is done must be reasonably sound!

Ike declares the farm bill passed by Congress isn't reasonably sound and in his public declarations makes a pretty good case from the standpoint of the administration's thinking on this matter. He charges Congress to get busy and do better—which members won't because that would spoil a stellar campaign issue.

The President knows this and has countered the political farm bill by proposed steps to be taken by the administration without action by Congress, if necessary. These include price supports on wheat and corn—guaranteeing a national price average of wheat at \$2 a bushel and corn at \$1.50; support price of milk to \$3.25 a hundred and butter to 58.6c a pound. "Where assistance will be constructive," the Agriculture department will use an available 400 million dollars, according to the President.

Vetoing farm bills may not win elections but the irrefutable sincerity and integrity displayed by President Eisenhower in doing just that is a real inspiration to millions who prefer that kind of leadership to demagoguery.

The SDX medal goes to Fischetti for the second time in three years. It is for a cartoon on the farm question entitled "The Natives Are Getting Restless," showing the Republican elephant warning Agriculture Secretary Benson of a shower of pitchforks. The original of this cartoon hangs in the office of Secretary Benson, who requested it from the artist. Fischetti won the SDX award in 1954 for "The Sceptre," a powerful comment on the death of Stalin. He had won the National Headliners award a year earlier.)

### The World Today—

## Farmers Must Decide Who Hit John

By JAMES MARLOW  
Associated Press News Analyst  
WASHINGTON (P)—Who struck John?

In this case the farmers are John. They'll have to decide in this presidential election year whether to blame Democrats or Republicans for the fall in their income, particularly if it keeps going down.

Within the past 24 hours—with Democrats and Republicans both aching for the farm vote—farmers have become a roaring campaign issue in a series of events which may leave them scratching their heads:

1. President Eisenhower vetoed the farm bill passed by the Democratic-run Congress with the help of farm state Republicans. The Democrats said this bill was just what the farmers needed to bail them out.
2. Immediately the Democrats began trying to make political capital of the veto. They said Eisenhower himself had dealt the farmers a "direct blow" and that he would have to take "full blame" for the farmers' troubles.
3. Eisenhower struck back in a nationwide broadcast last night, blaming Congress for giving him a bill which he said he had to veto as a matter of conscience because it would do more harm than good.

This was one of the few times in Eisenhower's three White House years when, by direct action of his own, he risked losing a vast chunk of personal popularity, as he will if the farmers now blame him for their plight.

He made it clear he knew he was taking a political chance by acknowledging he had been told "what a risky thing in an election year to veto this bill."

Besides the farm state Republicans who voted for the bill, three farm state Republican governors flew here to urge him to sign it and two farm organizations favored the measure: the National Grange and the National Farmers Union. A third group, the American Farm Bureau, opposed it. So did Secretary of Agriculture Benson.

Eisenhower, who has had some experience in generalship, refused to let the Democrats put him on the defensive, or at least entirely on the defensive.

The bill passed by this Democratic-run Congress would have

restored high, rigid supports. Although vetoing the Democrats' high support bill, Eisenhower at the same time announced he was going to increase price supports—although not up to the Democrats' figure—to give farmers an additional 600 million dollars in benefits this year.

Democrats hooted at this reasoning. Democratic National Chairman Paul M. Butler said Eisenhower had the authority to raise prices any time since becoming president but does it now "after farmers have lost three billion dollars."

But Eisenhower wrapped a challenge around the Democrats' necks, knowing the farmers would be watching to see what happened.

He urged Congress to pass this year a soil bank program that would pay farmers for cutting down on production by withdrawing acreage from surplus crops. He said it would, if passed with a provision for part payments when farmers sign contracts, give farmers up to 500 million dollars additional this year.

Now it's up to the farmers to figure out who hit them, if anybody, or whether they knocked themselves out by overproducing.

### TWENTY-FIVE YEARS AGO

W. H. Cloney and son, Tom, after a several days' business visit in Kansas City, arrived home accompanied by Mr. Cloney's brother, Todd Cloney, who spent the winter in California and who planned a lengthy stay here. The latter returned some months ago from an extensive tour of Europe.

Dr. M. P. Shy, Dr. A. J. Campbell, Dr. John Carlisle were among Sedalia physicians making a trip to Columbia for the annual Medical Day banquet at Hotel Tiger and to hear Dr. Walter E. Dandy, Johns Hopkins University, Baltimore, Md., in a lecture.

At a social session of the Business and Professional Women's Club the meeting was styled "An April Shower." The order was for members to bring kitchen utensils and other articles for use in the club rooms.

The Rev. E. D. Baker, pastor of the Methodist Episcopal Church, South, returned from Kansas City where he attended a district conference.

Forty years ago Cecil Meredith left for Topeka, Kan., where he accepted a position with the C. C. Karlan Fur Co.

Benton Cramer, a former Sedalian, who had been residing at Harris, Sullivan County, arrived and arranged to again make Sedalia his home.

N. C. Heckman, formerly of Hermann, Mo., arrived and went to work at the MKT shops. He was to be a member of the Sedalia Katy ball club. He was a pitcher with a fine record with a Hermann club.

Francis McGinley, former Sedalian, with a company manufacturing munitions for the European War, was here from St. Louis visiting relatives.

## Injections Play Valuable Role In Medical Science

Every once in a while, particularly when quick action is needed, certain preparations may be put into the body through the veins. There are also a few medically useful agents which cannot be given by mouth and must be given through the veins.

Some diseases can be treated best by intravenous therapy. Various preparations containing arsenic, for example, are given in this manner for the treatment of syphilis. (Incidentally penicillin has largely replaced this form of treatment.)

Some other chemicals which are poorly absorbed or irritating when injected into the muscles or under the skin may be given by vein for other conditions, particularly the tropical diseases.

For people who have lost a great deal of blood, a life-saving measure consists of giving blood from some other person (or a pool) into the veins. This is a form of intravenous therapy, called blood transfusion.

Nutritious substances and fluids

are frequently given intravenously. In people who have lost a great deal of blood and where blood transfusion is not immediately possible, the fluid loss can be quickly made up by injecting water to which salts have been added. Dextrose (sugar) solution is a source of quick energy which can also be given easily in this way.

Food proteins have been prepared which can be injected directly into the blood stream through a vein. This has been helpful for people who have had extremely poor nutrition for long periods of time and are unable to eat or digest food in the usual manner. It can also be used for some who are unable to eat adequate quantities because of interfering operations or diseases.

At least one case is on record where a patient was kept alive for eight weeks without any food taken by mouth. A protein preparation was injected, together with sugar and salt solutions to supply other types of energy and fluid.

Intravenous treatment has im-

Washington Correspondent

WASHINGTON — Even a casual glance at the voting record on the farm bill shows that a handful of Senators and Congressmen did some fancy trimming.

For example, one key vote in the House came on a motion to recommit the conference report on the farm bill. The conference committee, composed of Senators and Congressmen, produced a compromise that gave the farm bloc all it wanted and then some.

Recommitment of the bill would have resulted in the elimination of some benefits put in by the conference committee, and might have led to approval of a bill more to the liking of President Eisenhower. Republican leaders in the House did their best to rally support for the motion to recommit.

Several members from farm areas yielded to the leadership, and voted for the motion. For example, Rep. Tom Jenkins of Ohio, and Rep. Edgar Chenoweth of Colorado, voted for it. But then both voted for the conference bill when recommitment failed. Thus both will be able to say they voted as the Administration wished, and also for high parity.

Some Democrats trimmed, too. Democratic floor were anxious to defeat the recommitment motion. They enlisted the aid of big city Democrats who are inclined against high supports. Examples are Rep. Edna Kelly of Brooklyn and Tom Lane of Massachusetts. Both voted against recommitment—and thus in favor of continuing high supports. And then both voted against approving the conference report.

The motion to recommit the bill was beaten 238-181. The conference report was approved 237-181. These near identical totals, however, actually conceal the switchabouts that took place in the interest of party discipline.

On the Senate side of the Capitol, switchabouts were even more glaring. In March the Senate endorsed Agriculture Secretary Benson's flexible support theory by knocking 90 per cent parity out of the bill.

Victory would have been impossible without the votes of at least some farm state Senators. Among those who voted with Benson in March were: Frank Carlson and Andrew Schoepel of Kansas, Thomas Martin and Bourke Hickman of Iowa, and Homer Capehart of Indiana. The effect of subsequent votes was to deprive Benson of his victory. But the final, inglorious collapse came when the Senate considered the bill drafted by the conference committee. Carlson, Schoepel, Martin, Hickman, and Capehart all voted for the report.

President Eisenhower, according to well placed sources, has told the French they must achieve stability in North Africa soon. American public opinion will turn against him if unrest continues, Ike warned.

A lobbyist for the oil-gas interests says he feels like a hand grenade with the pin pulled. He should relax. It's obvious that the Senate isn't at all anxious to investigate his lobby.

HAS ANYBODY seen a row of lettuce any place?

A man who planted an early spring garden planted a row of lettuce and then in a few days he planted another row of lettuce. Now he can't find the first row. The second row is coming up nice but there is no trace anywhere in the garden of the first row. He knows just about where he planted it, close to the flower bed, and whether he covered it up with too much dirt when he was working in the flower bed or raked it in with the flowers he doesn't know. Anyway there is certainly a row of lettuce missing.—H.L.

THE TWO LITTLE girls are afraid of cats, but they love for the cat that belongs to the woman next door to play with the string that they pull around on the floor. The minute the cat stops playing and looks up at them, they run. One day one of them was playing in the yard at the home of their grandparents and saw a cat in the back yard. She started for the house and her aunt tried to tell her it wouldn't hurt her.

"It won't eat me?" she asked. "No," said the aunt. "It won't eat you." But the youngster wasn't taking any chances, she quickly decided she would rather play in the house. —H.L.

### Guest Editorial—

RALEIGH NEWS & OBSERVER: The Same Time For All. — Representative Staggers of West Virginia, who has been trying vainly for seven years to persuade Congress to pass a law providing for uniform daylight savings time throughout the Nation, thinks now it has a chance of succeeding.

It seems that Staggers has gotten a promise of committee consideration and has reason to believe a majority of the committee favors his bill. But that is only one hurdle. Rural sections of the country are opposed to the bill and their representatives are strong in Congress.

The present system whereby each state legislature either decides for itself whether to have daylight time or (more often than not) delegates that decision to each municipality in the state is undoubtedly confusing. Interstate travelers find themselves reaching many towns before they left the last or taking twice the usual time to traverse a given distance and radio listeners stay in constant confusion.

But Representative Staggers is probably un-  
duly hopeful.

# Men's Clothiers Go All Out To Spruce Up American Male

NEW YORK — (NEA) — Behind a solid barrage of advertising, publicity and promotion, the manufacturers of men's clothing are laying siege to the family's clothing budget.

"Men used to sit back and spend nothing on themselves," says a prominent suit manufacturer, "and most of them looked it."

But in the last few years, this has all changed. Men have been quicker to adopt new styles, they have been less cowardly about bright colors, they've begun to build up their wardrobes. The result of all this is twofold:

1. Today, the average American male is dressing better than ever before in history.
2. The men's clothing business is booming.

And the men who design and make the bulk of men's clothes are quick to capitalize on this. New styles are being introduced continually: some fall by the wayside, some are snapped up by the suddenly style-conscious male.

Some styles are radical—shorter length topcoats, bright-colored formal wear — and there is still some resistance a mong conservative male dressers. But generally the new fashions for men are not too major, since, as one manufacturer puts it, "You can only budge a man a little at a time."

The industry is profiting greatly from the revival of interest in men's clothes. Last year, suit sales were at their highest level since 1947, the year when all the GIs were shucking their Navy blue and khaki for civvies. Total sales for outerwear — suits, coats and the like — soared 10 per cent over the previous year.

But by far the biggest jump has been in the sportswear field. The manufacturers aren't sure what's caused this tremendous spurt in sportswear. Some say it's due to the general move to the suburbs, others think it has something to do with increased amounts of leisure time, a few give the credit to "a changing feeling among men — a sort of loosening of conservative clothing traditions."

Whatever the reason, the facts are plain — sale of sports shirts, slacks, shorts, sports shoes are way up. The slack industry, as one example, is selling about 50 per cent more pairs than it did in 1947.

Sports coats have jumped almost 100 per cent in the same period. Conversely, some branches of the clothing industry have fallen off. Dress shirts, pajamas, bathrobes are feeling the pinch, although they haven't gone down nearly as much as the others have gone up. And they all are optimistic about the future, too.

Some of the credit for the men's clothing boom must go, of course, to the postwar introduction of synthetic fibers. These — nylon, dacron, orlon and the rest — make it possible for men to wash-and-wear shirts and shorts with ease.

Another influence for good is TV, over which the American male sees stars wearing all the new styles. A big influence, too, is the introduction of fashions and fabrics from Europe and Africa and the Orient.

But perhaps the greatest influence on the American male is the American female, a species of individual reported to buy some 70 per cent of all the male's apparel.

WOMAN IN THE WINDOW of this store display of men's leisure wear is symbolic of fact women buy 70 per cent of the U. S. men's wearing apparel. Design here shows 1956 Oriental line.

## Pilot Grove PTA Has Style Show

The Tipton Vocational Agriculture department coached by Roscoe R. Gibson, vocational agriculture instructor, entered the district contest at Warrensburg Tuesday, April 10. For the ninth consecutive year they won a majority of the contests that they entered.

This year they won seven of the eight contests which they entered. Last year the boys won five of the six contests entered.

The teams receiving a Group I rating and the boys competing are: Field crops identification and judging, judges Leroy Knipp, Dean Knipp and Terry Reibenspies, substitute Maurice Oligschlaeger.

Dairy production, Douglas Griswold, Carl Allee, Gary Newkirk, substitute, Sam Welpman.

Dairy products judging an tasting, Lawrence Rogers, Willie Munsterman, Nathan Miller, substitute Larry Mortenson.

Soil judging, Don Charles, Jim Barbour and Don Forester, substitute H. D. Hofstetter.

Meat judging, Ronnie Scherff, Richard Mortenson, Tommie Monks, substitute, E. H. Brauer. This team won the state two years ago and are driving hard for the national this year.

The Philathea Class of the Versailles Methodist Church met with Mrs. F. A. Crowson assisted by Mrs. D. K. Hunter, Mrs. Elsie Talbott and Mrs. Loyd Cillins. Mrs. W. E. Nelson, president, conducted the business session and gave a short talk on "Sunday School Week."

Mrs. Roy Robinson gave the devotional. Mrs. E. R. Beckner, program leader, reviewed the first chapters of the book, "Life and Teachings of Jesus." Refreshments were served by the hostess during the social hour.

than Miller won the contest for freshman boys and Carl Allee won the contest for upper classmen.

This is a contest in which the records, the size or scope and the efficiency in which the farming is done on their home farm is judged. The farm mechanics team won a Group II rating losing the contest by only two points. Members of this team were A. D. Jennison, Monte Newkirk and Daniel Oligschlaeger with J. L. Morrison as substitute.

The boys are all working hard to enter the state contest at Columbia next Thursday, Friday and Saturday. If they can win in the state they will represent Missouri in the national contests this fall. Tipton has represented Missouri three times in the last seven years in the national contest.

## Your Eyes and Visual Functions

Within the relatively short period of a few centuries man has had to make three major adaptations in the use of his eyes and visual functions.

One adaptation has been to the increased time that he uses his eyes each day. Whereas primitive man used his eyes only during daylight hours, modern man is awake and his eyes are functioning sixteen hours and longer each day. A great part of this increased use of vision has come about since October 21, 1879 when Edison invented the incandescent lamp.

In addition to increased hours of use of his vision, modern man has taken on the vastly greater effort of using his eyes at near point instead of the much easier and more restful distance seeing for which his eyes are normally and naturally adapted. Contrast in your mind the many people around you who are using their eyes for long periods of near work with the desert nomad or our own frontiersman who seldom concentrated on small objects at near range.

The latest adaptation which modern man has had to make in seeing is due to his own fast movement thru space. Already more or less adapted to the quick, darting movements of other forms of life around him, within a relatively short span of time man has to learn to adjust himself visually to his own speedy and continuous movement in motor cars and planes.

The Missouri Optometric Association takes this means of bringing to your attention the great strides which have been made in examining procedures, corrective measures and training methods which have enabled modern man to develop and maintain the seeing skills so necessary in today's living.

# Major League Season Gets Underway Today With 'Play Ball' in Eight Cities

## Managers Await Answers to Some Knotty Problems

NEW YORK (AP)—Will Brooklyn dash from the barrier for 10 straight, as it did last year? Did the Yankees pick up pennant insurance when they got southpaw Maury McDermott from Washington? Are the Boston Red Sox improved sufficiently to wrest the American League title from New York?

Which team got the better of the deal that sent Larry Doby to Chicago and Chico Carrasquel to Cleveland last winter? Can rookie Luis Aparicio fill Carrasquel's shoes at shortstop for the White Sox?

These were some of the questions confronting managers today as the 1956 major league season got under way in eight cities. Although tabbed as heavy favorites to meet again in the World Series, the Yankees and Dodgers, like the 14 other clubs, are beset with problems. The Yankees are vulnerable at shortstop and in the relief department. Their biggest headache may come from their strongest department — the outfield. Although Mickey Mantle has given promise this spring of fulfilling his tremendous potential, there is a constant concern over his damaged legs.

Hank Bauer, still not fully recovered from the groin injury that cut short his World Series action, is playing despite a specialist's orders to rest for an entire season. Should either outfielder be made unavailable for any length of time, the Yankees would be in trouble.

Brooklyn is plagued by pitching miseries. The departure of Johnny Podres, the lame arm of Billy Loes and Karl Spooner and the uncertainty of Carl Erskine to pitch the full season with a balky elbow should prevent a romp such as last year.

Approximately 250,000 spectators, barring bad weather, was expected to view the openers. A crowd of some 28,500 was assured at Washington, where President Eisenhower was all set to uncork the first "pitch," the signal for the official opening of the '56 season. The scheduled pitchers were Don Larsen (9-2) for New York and Camilo Pascual (2-12) for Washington.

A pitching duel was in prospect in Chicago where Cleveland's ace right-hander Bob Lemon (18-10) clashes with Billy Pierce (15-10). At Detroit, Frank Lary (14-15), the Tigers' sophomore right-hander, was given the assignment against the Kansas City Athletics' wily southpaw Alex Kellner (11-8).

In Boston, it will be Ted Williams' first opener since 1952. Righthander Frank Sullivan (18-13) was slated to face Bill Wright (6-8), Baltimore's veteran left-hander.

The largest National League crowd (43,000) was expected at Milwaukee. Lew Burdette (13-8) hurls against the Chicago Cubs who had Bob Rush (13-11) all primed.

Another brilliant pitching duel was in the offing at Brooklyn, where the league's only 20-game winners were almost certain to square off. Robin Roberts (23-14) for Philadelphia and Don Newcombe (20-5) for Brooklyn were the main attraction.

At the Polo Grounds, the Giants, behind southpaw ace Johnny Antonelli (14-16), were primed for their opener against Pittsburgh.

## Young Boxer May Astound Heavyweights

SAN FRANCISCO (AP)—A California youth with only 58 rounds of professional boxing shapes up today as the newest sensation in the heavyweight ranks. He is undefeated with 13 straight victories.

Young Eddie Machen, striking with a sharp and sizzling left, cut hulking Nino Valdes, No. 3 in the world heavyweight ranks, down to size last night in taking an upset unanimous decision before a wild, partisan crowd of about 6,000 at the Cow Palace.

The 23-year-old Negro from Redding, Calif., inflicted only slight damage on the big Cuban but piled up enough points to win on all three official cards.

Valdes weighed 212; Machen 193. National television fans had their only look at him when he outpointed Julio Mederos, another Cuban, at San Francisco Garden recently.

The dancing Machen worried Valdes like a terrier after a bull. Valdes, apparently content to work on his smaller foe's body, plodded around absorbing the slashing lefts to the head without visible damage. He wore a disheveled look until the verdict was announced. Then it changed suddenly to one of complete surprise.

Scoring, under California's 11-point system, was Judge Toby Irwin 56½ to 53½, Judge Fred Apostoli 56-54 and Referee Jack Downey 55½-54½.

## Rookie Cage Star Called for Physical

PHILADELPHIA (AP)—Tom Gola, rookie basketball star for the Philadelphia Warriors and a three-time All-American at LaSalle College, was called up for his draft physical today.

Gola helped the Warriors win their first National Basketball Assn. title in ten years, scoring 732 points during the pro season.

with Bob Friend (14-9) on the mound.

In Cincinnati, the Cardinals, with Vinegar Bend Mizell on the mound, were the opposition. The Reds' opening choice was Joe Nuxhall (17-12).

## SPORTS

### Kansas City Athletics Open Season Against 56-Year-Old Tigers

DETROIT (AP)—The Detroit Tigers embark on their 56th American League season in a meeting with the Kansas City Athletics at Briggs Stadium today.

A crowd of 45,000 was expected despite forecasts of temperatures in the low 40's, laced with snow flurries.

Manager Bucky Harris is counting on a pair of husky youngsters to pull the Tigers out of their batting doldrums.

Only Al Kaline and Harvey Kuenn lived up to expectations at the plate during the 31-game spring exhibition tour. Kaline, a 21-year-old rightfielder who led the major leagues in hitting in 1955, batted .320. Kuenn batted .340.

Frank Lary, a 25-year-old right-hander, will open for Detroit. His mound opponent will be Alex Kellner, veteran left-hander who defeated the Tigers only once last season — 6-2 in the opener at Kansas City.

Detroit finished fifth last season and Kansas City wound up sixth. Most of the experts pick them to finish that way again or vice versa.

### Globetrotters Clinch Tour With All Stars

CHICAGO (AP)—The Harlem Globetrotters clinched their barnstorming tour with the College All Stars last night with a 67-59 triumph, their 11th in 18 games.

Tom Heinsohn, All-American from Holy Cross, was the game's high scorer with 20 points. The Stars led 19-18 at the end of the first quarter but the Globetrotters went ahead to stay at the half, 39-35.

### Triple A League Opens '56 Season In Indianapolis

More than 50,000 fans were expected to watch opening games of the American Assn.'s 55th pennant race today.

The class AAA league's 1956 campaign was scheduled to open in an afternoon game between Omaha and Indianapolis in the Indiana city. Night games included Denver at Wichita, St. Paul at Louisville and defending champion Minneapolis at Charleston.

Ed Doherty of Louisville, starting his third year as league president predicted a big season. "Given anything approximating a close race, I believe we have a real chance of not only reaching the two million attendance mark, but also of challenging the all-time record of 2,235,833 set in 1948," Doherty said.

The biggest opening day turnout was expected at Wichita, where the crowd was expected to near 20,000.

Wichita's Braves bow into AAA baseball for the first time under Manager George Selkirk, former star outfielder for the New York Yankees. The city moved into the association this year from the class A Western League, replacing Toledo.

Two new managers are making their league debuts — Eddie Stanky at Minneapolis and Charley Metro at Charleston.

## Tiger Golf Team Whips Fulton Here

### S-C Swingers Open Season With 9Big Victory Monday

Smith-Cotton's golf team, composed of five Tiger swingers this year, opened their 1956 schedule on the Countryview course here Monday and stroked their way to victory over the Fulton high school golfers, runners-up in the Missouri state high school golf tournament at St. Louis last fall.

The Tigers, led by a surprise frontrunner Clayton Craig, jolted the visiting Fulton squad by 9½-5½ on the point system, and 426-434 by the team total stroke method.

The dual meet was scored on medal play in the individual matches, with a possible three points in each match, and the three points being distributed as such: one point to the winner of the first nine holes, one point to winner of the second nine and a point on the total medal score for the 18 holes.

Gilbert Roberts and Clayton Craig of Smith-Cotton each blanked their opponents and collected three points apiece. Ronnie Turner won his share of 1½, Mike Lee 1½, and Vic Van Dyne ½.

Craig, playing in the No. 3 position on the team, took medalist honors of the meet with a score of 41-38-79 for the 18 holes. Fulton's linksters were led by Bob Bloom with 42-41-83.

The Smith-Cotton golfers will travel to Columbia Wednesday for a dual meet with the Columbia Kewpies on the municipal sand greens course there.

Following are the players with their points won in parenthesis, along with their hole-by-hole scores for the match:

**SMITH-COTTON**  
Roberts (3) 344 555 544-39, 335 575 364-41 — 80.  
Van Dyne (½) 544 644 565-43, 645 643 556-44 — 87.  
Craig (3) 445 446 455-41, 444 554 38 — 79.  
Turner (1½) 555 643 455-42 644 754 655-46 — 88.  
Lee (1½) 356 766 445-46, 554 558 455-46 — 92.

**FULTON**  
Bloom (0) 445 646 345-42, 345 546 455-41 — 83.  
Wilkes (2½) 555 543 565-43, 545 543 556-42 — 85.  
Brooks (0) 444 555 385-43, 445 556 464-43 — 86.  
Neidergerk (1½) 535 543 666-43, 645 544 575-45 — 88.  
Kemp (1½) 635 755 565-46, 445 566 466-46 — 92.

**Veteran Outfielder Dies Playing Golf**  
SAN FRANCISCO (AP)—George Puccinelli, 48, an outfielder with the St. Louis Browns and Cardinals and the Philadelphia Athletics in the 30's, died yesterday while playing golf.

Puccinelli, a television repairman, also had played with San Francisco and Hollywood of the Pacific Coast League.

He is survived by the widow, Roma.

## Jackie Robinson Will Observe Anniversary

JERSEY CITY, N. J., (AP)—The Brooklyn Dodgers' first game in Roosevelt Stadium here Thursday will be a kind of 10th anniversary for third baseman Jackie Robinson.

It was 10 years ago to the very day, April 19, that Robinson, the first Negro player in organized baseball, played his first official game.

Playing for the Montreal Royals, a Brooklyn farm team in the International League, Robinson grounded out his first time up, but hit a home run with two men on, beat out two bunt singles and another infield single subsequently. He also stole two bases and so upset the Jersey City pitcher that two balks were called as Montreal won 14-1.

## Western Horsemen Hold Regular Meet

The Western Horsemen held their regular meeting April 12th with a contributive chicken dinner. It was announced that more classes would be added to the horse show this year to provide more entertainment.

Entertainment committee members appointed for May are Mrs. W. S. Jeffers, Mrs. Verda Rich, Miles Evans, and Mrs. Dewey Swope. Guests at the meeting were Mrs. Ruth Wasson, Mrs. Mary Wyatt and Junior Ferguson.

# Hollywood Optimistic Over Future

SEDALIA, Mo. — Special — "Hollywood moviemakers are still viewing the future with enthusiasm," writes Edwin Schallert of the Los Angeles Times. "They refuse to fret over a boxoffice slump which has prevailed during the fall and winter months. Their opinion is that there is nothing wrong that a few superior productions won't cure."

"The main objective is to present as many of these top films as possible this spring and summer. The release of some of the more important features may be speeded up."

"There is a contention that new faces are essential for the future. Don Hartman goes so far as to say that the industry is doomed unless it finds new faces. He adds that during 1956 there will be tougher competition than ever for players and stories. Just prior to announcing his shift from head of production at Paramount to an independent status last week, he said:

"Producers must be more selective than ever and each picture must be more carefully prepared. No longer can producers or studios mimic one another or themselves. There will therefore be a greater development of fresh ideas and new people — directors, pro-

## Jockey Will Have His Friend By His Side On \$64,000 Program

PASADENA, Calif. (AP) — When jockey Billy Pearson shows up for the \$64,000 question TV show in New York tonight he'll have California artist Miltard Sheets by his side.

This doesn't necessarily mean that Billy will go for the \$64,000, but Pearson and Sheets have been friends for several years.

Billy rode one of my 2-year-olds, Gala Mac, at Hollywood Park," Sheets said last night before flying East. "When he discovered I was an artist he hounded me for information. He is very well posted. I'm frank to say I couldn't have answered some of the questions he answered."

ducers and writers, as well as actors."

"The emphasis in 1956 will be on important literary properties—novels and plays which are pre-established, presold, but which have been carefully selected for their film potentialities," said a Columbia executive.

"Darryl Zanuck foresees that bidding for best plays, short stories, novels and magazine pieces will attain a 'gradiose level' during 1956."

"If there is a slump it isn't to last long. There is definite assurance that by late spring and summer the movie business will be booming."

# Lana Turner Now Is Free, Own Agent

By BOB THOMAS  
HOLLYWOOD (AP)—For the first time in 17 years, Lana Turner can call her career her own. And she's never been happier.

Lana got sprung from her long exclusive contract with MGM after months of campaigning. She still owes the studio five pictures in the next five years, but otherwise she's a free agent.

"And does it feel wonderful!" she enthused over lunch in a Hollywood hideaway. "At last I can read scripts from other studios—I've been going through a stack this high at home. And I can talk about my own deals, instead of doing what the studio tells me to do."

For some time Lana had been unhappy about a few things at the studio. For one thing, she never did a picture off the lot in her first 15 years there.

"I didn't even get to see the scripts that were offered to me from the outside," she remarked. "The studio turned them down for me."

"Finally, I made a big pitch to be allowed to do 'The Sea Chase.' I argued that it would do me a lot of good to be teamed in a picture with John Wayne."

"I finally convinced them. I'm sorry the picture didn't turn out as well as people had hoped, but at least it set the precedent. And it led to another loan-out, 'The Rains of Ranchipur.'"

Lana made no bones about her dissatisfaction with her last two pictures at MGM, expensive turkeys called "The Prodigal" and "Diane."

"I argued with them that I was not the kind of a girl who should be in costume pictures," she said. "Look—I'm a modern-type girl. The good pictures I've done 'Postman Always Rings Twice,' 'The Bad and the Beautiful,' perhaps 'Rains of Ranchipur'—should have proven that."

"But they wanted me to do costume pictures. So I did the best I could—and took the blame for them."

Lana enters the free-lance market at the best possible time. The stars with big names can just about write their own ticket at any studio in town. And the name of Lana Turner still stands for the epitome of glamor in the movie world. She offered some hint of how she has stayed that way:

"When I started in pictures, there was still an air of mystery about the stars. Garbo was still working then, and Norma Shearer and Joan Crawford were still queens on the MGM lot. I was brought up in the tradition of not telling all about yourself, of withholding something of yourself from the public."

## Much Work In Routing Films to TV

By CHARLES MERCER  
NEW YORK (AP)—Have you ever wondered how a Hollywood motion picture reaches your television screen?

Sometimes it looks as if somebody reached in a grab-bag of old films and slapped the first one he found on the home screen. Actually there's much more to it than that.

Ralph M. Cohn, vice president and general manager of Screen Gems, television subsidiary of Columbia Pictures, described in detail the other day some of the pain—and the profit—involved in release of Hollywood films to the nation's TV stations.

When Columbia announced its decision to release 104 old films through Screen Gems several weeks ago, it was the result of more than a year of planning and research by a large staff. The fundamental decision was whether more profit was to be found in TV release than in motion picture theatre reruns and remakes.

Information and opinion about a large number of films from movie distributors, TV distributors, individual TV stations and numerous other sources over a long period of time were carefully collated and weighed. Meanwhile, about a year ago a large staff of lawyers and assistants began investigating the legal rights involved in films proposed for TV distribution.

This is such a complicated situation it's difficult to describe. Involved are the rights of actors, directors, writers, composers. Some actors, for example, had contracts stating that films in which they appeared could not be shown on TV at hours when they had regularly scheduled TV appearances. Other actors' contracts forbade TV film showings—and their permissions had to be obtained.

In many cases story rights were even more complicated, involving renewable copyrights and tracing the heirs of deceased authors. The

same problems existed in the case of musical rights.

As legal patterns of clearance emerged from the work of a staff costing about \$150,000 a year, Screen Gems took up the problem of making new films and sound tracks from stored negatives and tapes in order to assure a better TV production of films than often is seen on the home screen. The cost of this Cohn estimated at between \$2,000 and \$3,000 a film.

When 104 films finally were cleared and selected there began

new problems of selling to the nation's TV stations. Did you know, for instance, that the South and West go heavily for action pictures, while sophisticated comedies are of secondary interest? In the Northeast, on the other hand, it is the opposite case.

All types of "packages" and varieties of these 104 films were set up for sale to agencies and individual TV stations. Cohn estimates that profits from the films over the next two years will range between \$75,000 and \$100,000 each.

## Rotary Has Songs • Dances

Rotary had a varied program in three parts at its regular noonday luncheon Monday consisting of talks, music and dancing.

D. W. Heckart, president, presided with invocation being given by the Rev. R. M. Leheve. Songs were led by Emory Bowman with Miss Lillian Fox at the piano.

M. G. Goodrich, program chairman, presented Frank G. Buchanan, local general agent for the M.K.T. who spoke on "Perfect Shipping," telling of proper methods to insure against loss or damage.

Jack Cunningham advanced a proposal to have a "Dream Game," that he explained would be a football contest between two of Missouri's finest all-star football teams from leading conferences. He suggested it would be timely, entertaining and be a genuine display of good sportsmanship. The time for the all-star competition would be during August and he asserted it would be hoped the players would be comprised of graduation seniors in event it could be arranged.

Peggie Hewitt Homan presented some members of her dance studio in special song and dance numbers as follows:

Benji Hill, "17 Tons; Nancee Homan, "Joint Account"; Warren Cheatham, "Try"; Linda Reed and Connie Reed, acrobatic dancing; Sue Uhr, tap dance; Nancee

Homan, Warren Cheatham and Benji Hill, "It Tingles" and "Bargain Day."

Visitors introduced by James Denny were William and Robert Stanley guests of their father, W. O. Stanley; Charles Leftwich, guest of Mike O'Connor. Dale McGregor, Plant, Ark., attended.

## TV May Replace Car's Rear View Mirror

BOSTON (AP)—The Universal Broadcast System, Inc., says the rear view mirror in the automobile of the future may be replaced by a televised view of the road behind.

The company says a small camera will be mounted in the car's rear trunk to flash views through closed-circuit television onto a 4 by 6 inch screen on the dashboard.

## John Graham Shows Little Strain While Attorneys Pick Jury

DENVER (AP) — Gum chewing John Gilbert Graham, 24, is showing little strain as attorneys examine prospective jurors to try him for the slaying of his mother — one of 44 bludgeoned to death in a dynamite airliner.

Graham, a slim 160 pounds on a 6-1 frame, was a picture of relaxation yesterday while 47 prospective jurors were questioned. He looked squarely at them during their examination.

His intent expression never wavered as they answered questions whether they would inflict the death penalty "in the proper case." Sixteen were excused because they said they objected to capital punishment.

He was unconcerned too when 13 said they had fixed opinions in the case and that any evidence presented—or anything Graham might say—wouldn't change their opinions.

Graham is charged with the murder of his mother Mrs. Daisie E. King, 55. He took out \$37,500 flight insurance on her life before she boarded a United Air Lines DC-6B at the Denver airport last Nov. 1. The plane exploded 11 minutes after takeoff.

## Delegates to Baghdad Pact Meeting Start First Working Session

TEHRAN, Iran (AP)—Delegates to the five-nation Baghdad Pact Council meeting got down to their first working session today behind closed doors.

Before them were reports from their economic, military and anti-subversion committees and recommendations for strengthening Middle East defenses against possible Communist aggression.

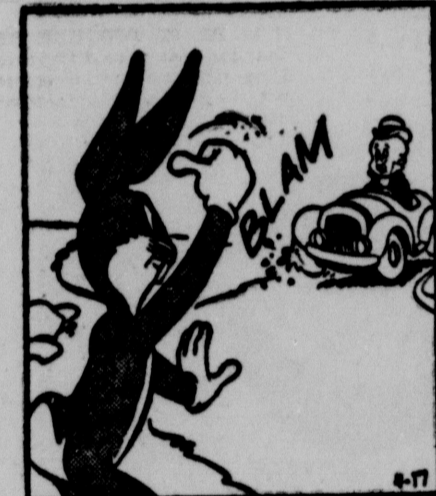

Council action on the committee recommendations was not expected to be disclosed until the conference ends Thursday. Members of the alliance are Iran, Iraq, Turkey, Pakistan and Britain. A U.S. delegation of observers also is attending.

## Thief Won't Have Much Use for Loot

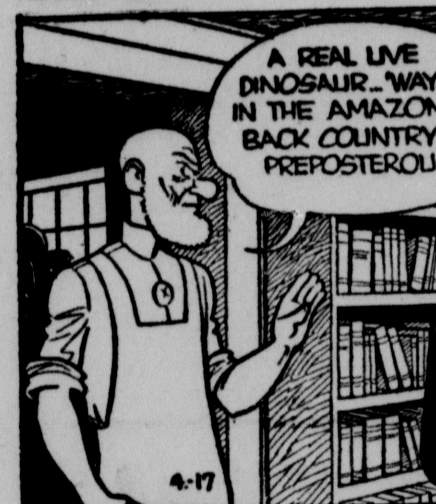

DALLAS (AP) — If the thief who stole a violin from the East Dallas Christian Church has any aspirations for a concert career, he is going to be disappointed with his loot. Church officials said the instrument was strung backwards, the D string is knotted, the seams are buckling, and parts fall out when the violin is handled. Besides, the thief left the bow behind.

Before it was separated from Virginia, West Virginia was called the trans-Allegheny region of Virginia.

## Sentence Confirmed

AD, Okla. (AP) — Clarence L. Yoakum was given a day to wind up his business affairs before beginning a year's sentence in the state penitentiary for driving while intoxicated.

Before the stay expired Yoakum was jailed and charged with reckless driving, intoxication and with operating an automobile without a license.

## Hybrid Navy Ship

SAN DIEGO, Calif. (AP)—Officers on the Navy's new fuel and cargo-ammunition carrier, Kawishiwi, also fitted for use as a hospital ship, claim it is one of the most unusual vessels in the service.

They say that with operating rooms, X-ray room, and a main ward with 32 bunks, it is better equipped than many cruisers for handling battle casualties.

A total of 168,732,160 acres of land and 2,364,000 acres of inland water are included within the state of Texas.

The life and drum corps of the Revolutionary army marked the first recognition of music as an army morale factor.

## Colors in New Metal Tubes Permit Exact Paint Tints

By VIVIAN BROWN  
AP Newsfeatures Writer

You can paint a room these days in less time than it takes to bake a cake. A small room, of course.

That is a lovely excuse for the lady of the house taking over and doing a room whenever she feels in the mood. It is simple these days, what with paint rollers and lovely colors to select. Color-wise types will venture to mix their own paint colors. Fun too, because all you do is squeeze color from a little metal tube into a bucket of plain white paint to get the shade you like.

More women are doing the home painting, what with dad complaining that he can't find the time or can't afford a painter or can't find one that is available. Well—why not Mom?

Some paint producers have devised a simplified paint-tube process that makes possible a range of some 1,300 hues. That way if Mom likes pink and Mrs. Jones has a pink kitchen, she can still have pink but have her own special pink.

The small home, for instance, may be done all in one color, using a different hue in each room. This makes the house seem larger and with a little thought in advance, Mrs. Homemaker can plan it neatly. Paint stores have pamphlets on how to mix these paints so that one color may be deepened from kitchen to bathroom to give a lovely range of shades. Or your paint store man can mix the paint for you.

Blue, a color in the decline a few years back is making a strong comeback. Pink-coral, yellow-maize, white-off-white and gray follow in succession. Char-treuse is popular again too.

All sorts of effects may be achieved with little effort. Polka-dot paint, a spray on coating that consists of fine droplets of various-colored lacquers suspended in a water medium so that the color used in the largest amount becomes the background while other

colors appear as colorful contrasts is easily applied.

One paint gives a chalkboard surface, still another simulates frosted glass.

Most paints today are odorless, and some states have outlawed lead-mixed paints for safety reasons. Latex or emulsion type paints have little or no odor, are water-thinned, requiring no special solvent. They may be cleaned up with plain water. Resin paints are odorless and give a good decorative type finish. These are thinned with solvents and excess may be cleaned with turpentine after using.

One of the loveliest all-over-the-house colors in a dreary house, one that is shaded by trees or obscured by buildings is yellow. It brings sunshine into the house as soon as it is applied and your color scheme may range from the rooms of the house to the deep glowing yellows in the darker rooms for an enchanting effect.

Pink offers a pleasant glow too in dark rooms. Blues, greens and darker colors are lovely in bright rooms especially. Apricot and burnt orange are popular shades in high-style decorating. These may be used also as accent with white-off-white shades for unusual effects.

# Kellogg's discovers a great new protein food

This intent lady is reading the most nutritious cereal story of our time. You can read about it on the back of the Special K package.

## Concentrated high-quality protein in a delicious new ready-to-eat cereal form

LIKE most of us these days, this young mother is well aware that the key to her family's good health is protein—and plenty of it.

She knows that high-quality protein is the foundation of balanced meals. That it helps her youngsters to grow strong and sturdy... keeps grownups going longer without a letdown.

And now—with Kellogg's Special K—she can start herself and her family out in the morning with the kind of protein they need: concentrated high-quality protein in a delicious new ready-to-eat cereal form.

Special K was developed in collaboration with nutritionists from two leading American universities. It took four years to find a way to combine protein-rich grains with the valuable properties in other foods (including milk and yeast).

The result is a new food with more high-quality protein than any other leading cereal—hot or cold. And twice their average.

With so many health-giving properties, including substantial amounts of all the vitamins you need most you're probably wondering what Special K tastes like. We can assure you that it is unusually tempting to eat. In fact your whole family will enjoy it not only for breakfast, but any time they want wholesome food fast.

The proof is in the package with the big, red "K" on it at your grocer's. We invite you to try it—especially if your family hasn't been eating cereals too frequently.

Special K, for all its extraordinary health benefits, costs only about 4 1/2¢ for a generous one-ounce serving. And where else could you get so much high-quality protein for so little money?

<p><b>Expectant mothers</b> require far more protein than usual. Kellogg's Special K provides high-quality protein that helps assure a healthy baby. Also more nutritional benefits than any well-known cereal.</p>	<p><b>Fast-growing youngsters</b> need up to twice as much protein as grown-ups. They need high-quality protein—the kind in Special K—to build sturdy bodies, good red blood.</p>
<p><b>Weight watchers</b> will appreciate this: Kellogg's Special K has more high-quality protein than any other well-known cereal, yet an average (1 ounce) serving contains only 105 calories.</p>	<p><b>Mature adults</b> find protein helps them lead active lives years longer. Special K's high-quality protein is easily digested and its inviting flavor helps stir lagging appetites.</p>
